U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On October 12, 1975
- Export shipments in
Current Marketing Year
- Daily Sales reported
October 13 - 21, 1975

-- As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

EXPORT SALES REPORT

Comments on release of October 23, 1975 (based on reports from exporters during the week ending October 12, unless otherwise noted):

U.S.-SOVIET GRAIN AGREEMENT ANNOUNCED AND MORATORIUM LIFTED:

The moratorium on further sales of U.S. grain and oilseeds to the U.S.S.R. for the current marketing year was lifted on October 20. It was also announced on October 20 that, in a new 5-year agreement with the U.S., the Soviet Union has agreed to buy at least 6.0 million metric tons (MT) of U.S. wheat and corn annually for a 5-year period commencing next October 1. The new agreement stipulates that an additional 2.0 million MT of those grains may be purchased in any year when the total U.S. grain supply (production plus stocks) exceeds 225.0 million MT. Sales in excess of 8 million MT may only be negotiated after consultation between the two governments. To ensure that regular grain customers will retain the chance to purchase U.S. grains in poor harvest years, the agreement provides the U.S. with an option to curtail Soviet purchases below the 6.0 million MT level if total U.S. supplies should fall under 225.0 million MT.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 412,000 MT. Some of the higher commitments were to Japan (78,600 MT) and to the U.S.S.R. (100,300 MT) where the increase does not reflect new sales, but changes from previously reported optional origin sales. Minor changes to several Latin American, Asian and African countries accounted for higher commitments of 331,600 MT. Commitments to unknown destinations declined by 124,400 MT.

Since October 12, a sale of 101,600 MT of white wheat to India for December 1975 - January 1976 delivery was reported under the daily reporting system.

Feedgrains: The apparent export commitment for 1975/76 increased by 293,500 MT to a total of 14.3 million MT. Total corn commitments increased by 201,700 MT with major increases to the U.S.S.R. (141,300 MT), Portugal (89,200 MT), the European Community (93,700) and the Republic of Korea (73,100 MT) only partially offset by a 202,500 MT decline in commitments to unknown destinations. Sorghum commitments increased by 75,900 MT, with minor changes in commitments to several destinations.

A corn sale of 128,023 MT was reported to Spain for January-March, 1976 delivery under the daily reporting system since October 12.

Soybeans: The apparent export commitment for 1975/76 increased by 639,700 MT, primarily reflecting increased commitments to the Netherlands, Spain, Japan, Republic of China (Taiwan), Norway, Denmark and unknown destinations. The largest increase during 1974/75 was 534,000 MT for the week ending October 6, 1974. At that time, however, the total export commitment was climbing toward 18 million MT compared with 6.7 million MT as of

October 12, 1975. Exports during the week totaled 306,400 MT; primarily to Japan (152,000 MT), the EC (102,500 MT), East Germany (20,200 MT) and Norway (16,500 MT).

A USDA vegetable oil team recently visited the U.S.S.R. The team concluded:

(1) Crushing capacity in Soviet seed processing facilities limits the quantities of soybeans that could be imported to about 500,000 MT annually in a year of normal oilseed production. Soybeans in excess of this amount could be imported only in years when the domestic sunflower/soybean crops are sharply reduced, e.g., 1972 and 1975. Soybean purchases of 1.5 million MT for delivery in 1975/76 now reported by trade sources would require nearly 3 million MT of sunflowerseed crushing capacity and would appear to indicate a domestic sunflowerseed crop outturn in the lower part of the current estimate by USDA of between 5.5 - 6.0 million MT in 1975.

(2) Oilseed (soybean) imports will continue to be favored over meal imports as long as the Soviets stress domestic processing and requirements for industrial oils exceed supplies. However, when requirements for proteins for the mixed feed industry increase more rapidly than can be met by protein produced from domestic or imported oilseeds, oil meal imports as meal or pellets may be required, e.g. in the latter part of the 1976-1980 plan period.

Soybean Oilcake and Meal: The apparent export commitment increased by 55,000 MT, primarily reflecting increased commitments to the EC and Eastern Europe. Commitments to unknown destinations declined. Exports during the week totaled 67,400 MT; primarily to East Germany (34,500 MT), the EC (27,200 MT), and Canada (4,100 MT).

Cottonseed Oil: Exports during the week were limited to 3,100 MT shipped to Egypt. Because the demand for cottonseed oil imports is expected to remain strong in traditional markets, the USDA increased its U.S. export forecast to 272,000 MT (600 million pounds), compared with 227,000 MT (500 million pounds) estimated previously.

Cotton: The apparent export commitment for Upland cotton in 1975/76 again dropped slightly as cancellations exceeded new sales by 1,000 running bales (RB). Cancellations were mostly by Japan and Switzerland. Though new sales continued light, there was broader interest with small gains in commitments to 8 countries coinciding with a 5 percent drop in U.S. prices. Export movements continued at near the average of the last eight weeks. Outstanding sales for 1976/77 delivery rose slightly on a registration to Switzerland.

Pima cotton exports totaled 2,500 RB during the week and cumulative shipments since August 1 have reached 6,700 bales.

OUTSTANDING EXPORT SALES AND EXPORTS - 1975/76 MARKETING YEAR

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. 3/ Includes decreases resulting from shifts in delivery period from one marketing year to another, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 4/ Does not include exports for exporter's own account. 5/ Less than 1,000.

Data shown above may not add due to rounding.

A table on page 28 concludes the collection and summary portion of the basis-type contract activity project.

<u> </u>														

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. Also includes decreases resulting from shifts in delivery period from M.Y. 74/75 to M.Y. 75/76, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 3/ Does not include exports for exporter's own account.

Data shown above may not add due to rounding.
